

***SIGN THE PLEDGE  
TO BOYCOTT HP!***

**Hewlett Packard  
Harms Palestinians**

Hewlett Packard (HP) is best known for producing our printers and laptops. But it is also complicit in Israel's brutal occupation of Palestinian land and grave breaches of international law. HP provides Israel with specialised technologies which are integral to Israel's system of oppression of the Palestinian people. HP profits from the illegal Israeli occupation by providing:

- Key IT systems used by the Israeli navy to enforce the deadly blockade and destruction of Gaza
- Technologies used by the Israeli army to stop the free movement of Palestinians living in the West Bank, and to maintain Israel's illegal occupation of Palestinian land, such as the BASEL system
- Services and technologies to major Israeli settlements in the occupied West Bank, including Ariel and Mod'in Illit.

Until HP ends its complicity in the illegal Israeli occupation :

**I pledge not to buy HP products, such as printers, computers and ink, because I refuse to be complicit in the oppression and occupation of the Palestinians.**
